

Why Are Libraries Important?

Why are libraries important you ask? Well let me tell you in a little story! One day I was stressed out because I had a test coming in my social class! Then suddenly POW! I got an idea-I should go to the library. It was nice and calm so I could concentrate. So I grabbed a social book. It helped me so much it told me more stuff then the teacher did! It was pretty fun! The lesson is that libraries are important because they are entertaining, calm so you concentrate and it has good info!
